

The screenshot shows the 'Organiser' software interface. At the top, there's a navigation bar with 'Page', 'Safety', and 'Tools' menus. Below that, a calendar shows the month of November 2011, with the 21st highlighted. The main area is titled 'Trauma and Orthopaedics - Daily Fracture Clinic' and shows a list of appointments for Monday, 21 November 2011. The appointments are color-coded: green for 'Attended - Patient Departed' and pink for 'DNA'. The first appointment is for patient 3118279, with a time slot of 09:00-09:05. To the right, the 'Appointment Details' sidebar shows information for patient 3118279, including the date, time, and last modified date. At the bottom of the sidebar, the 'Actions' section lists several options, with 'Request a radiology examination' highlighted by a red circle with the number 3.

1 Select the **department** and **schedule** to view a list of patients

2 Click the **patient attending** to view available actions

3 Click the action you require eg: **request a radiology examination** (iCare will open in a new window, ready for you to request)
